**Description of change:**

ASE – ChungLi’s introduction of auto-printed QA stamp on inner box label. Please see below details of change

QA Final buy-off	From	To
QA stamp	Inked	Auto-printed
QA gating process	Manual control	System control thru MES transaction

In terms of ASE - ChungLi’s QA final buy-off process, same checkpoints will be performed but it will be system-based using the Manufacturing Execution System (MES). Automatic alarm will be installed in case of QA failure to check requirements to stop the lot from moving to the next process step.
