Description of change:

Nordic label (ICL) relocation on inner boxes.

Inner Box	From	To
	Affixed on top side of box	Affixed on rear side of box
ICL position		

Note: Nordic label is a peel-off type label that can be re-attached on box or reel by customer

Location change will simplify parts identification since old label position is not visible when boxes are stacked on each other.

The old ICL location will not exist once we start shipping parts using the new location on inner box.

Impact: Does the change affect **product**:
